

I just found out that the FCC has introduced a new service known as Low Power FM. I will be VERY UPSET IF THESE STATIONS WERE TO TAKE PRIORITY OVER MY Christian radio station 100.7Fm. This is the only christian Station that ministers to this area commercial free, and it would be a HUGE LOSS to the area should this be allowed to occur. The community would suffer a huge void in listening choices and services. K-LOVE needs to stay in the air because of all of the educational as well as music opportunities they provide. I leave the station on the channel all day, and don't have to worry about any foul language or crass jokes for little ears - or mine to have to hear. That would never Happen on K-Love. They have blessed me for years now, And I would be very upset to loose it. Aren't there already plenty of non-Christian stations out there? Please leave this one on the air. They have wholesome values, and a positive and encourageing message that impact communities all across America. Thank You for your attention to this matter of GREAT IMPORTANCE.
